

A decorative border of green and brown leaves surrounds the text.

Our Pedagogy

Brookside Preschool's practice is shaped by trusted, research-informed early years pedagogy, including:

- **Nature-Based Learning**

Our garden and outdoor areas are used daily in all weather, offering hands-on experiences that support sensory, motor, cognitive, and emotional growth.

- **Play-Based Curriculum (EYFS-Aligned)**

We believe play is how children make sense of their world. We use the EYFS as a framework, with each child's interests guiding our planning and interactions.

- **Attachment-Informed Care**

Inspired by attachment theory, we focus on building strong, secure relationships. Key persons provide continuity and emotional safety for every child.

- **Child-Led Exploration**

We recognise each child as a competent, active learner. We follow their curiosity, encouraging independence, choice, and meaningful exploration.

- **Reflective, Caring Practitioners**

Our experienced team continuously reflects on practice, using professional development and observations to tailor learning to each child's needs.
